

PLASTIC MIRROR SHEETS

Acrylic Mirror

High quality mirror finish acrylic sheets with tough protective back coating, protects against scratching during fabrication. Acrylic mirror is ideal for slatwalls, point-of-purchase displays, children's toys, cosmetic displays and for applications in the food service industry.

Mirror Finished Acrylic sheet sizes are 2440 x 1220 mm.

Thicknesses range from 1.5 to 6.0mm dependant on product selected.

Finishes are available in clear, textured and over 17 vibrant colours

Available Colors in Acrylic Mirror Sheets:

1000 Blue	2069 Blue	2424 Blue	1020 Purple	2422 Amber
1050 Gray	2064 Gray	1119 Orange	1300 Gold	2120 Teal
1310 Red	2423 Red	1400 Red	1450 Pink	2208 Yellow
2414 Green	4674 Green	1600 Bronze	2404 Bronze	

See-Thru Acrylic Mirror

See-Thru mirror, or two-way mirror, is a semi-transparent film of aluminum deposited on an acrylic or polycarbonate substrate, which allows a percentage of incident light to pass through while reflecting the remainder. Used in department stores, retail outlets, correction institutions and casinos where monitoring and surveillance are required.

First Surface Acrylic Mirror or Two-Sided Acrylic Mirror

First Surface, or two-sided mirror, is an opaque film of aluminum, protected by a tough clear coating, deposited on an acrylic or polycarbonate substrate. Light from either direction is reflected. This type of mirror is ideal for applications where the backside of the acrylic mirror will be exposed, or where a reflection in both directions is desired.

First surface mirror is available in thicknesses of 3mm and 6mm.

Marine Grade Acrylic Mirror

Marine Grade mirror is a superior quality, premium grade acrylic mirror sheet highly used in boat/yacht cabin areas. It is thoroughly inspected throughout each manufacturing process to ensure maximum quality standards. Marine Grade acrylic mirror sheet is available in 3mm and 6mm, in standard sheet sizes of 2440mm x 1220mm and 2440mm x 1525mm.

Textured Acrylic Mirror

Acrylic mirror is available in non-glare, prismatic and stipple patterns for special design needs. Available in 3mm

PETG Mirror

PETG mirror is available for applications where versatile fabrication properties, impact strength and design flexibility are needed. Available in thicknesses of 0.5mm to 3mm, in a standard sheet size of 2440mm x 1220mm.

PETG mirror is ideal for children's toy and cosmetic case applications.

Polycarbonate Mirror

Polycarbonate mirror is available for applications where security and flame resistance are priorities. Available in 3mm and 6mm, in a standard sheet size of 2440mm x 1220mm. Polycarbonate mirror sheet is available in 2404 Bronze 3mm, see-thru, first surface and with a scratch-resistant coating.
